EDUCATION

California State University, Fullerton

Bachelor of Science in Computer Science

Fullerton, California

August 2024 – May 2028

EXPERIENCE

Volunteer Programmer

Hikari3.ch

May 2023 – June 2025

Remote

- Co-Founded an alternate Online Image Board.
- Used JavaScript to develop mobile features to enhance user experience
- Worked with various different programmers on diverse time-schedule

Game-Dev Lead

Association for Computing Machinery

September 2022 – Present

Fullerton, CA

- Managed a division in a 2500+ member club, overseeing day-to-day operations
- Led video game development workshops teaching game engines for members.
- Conducted interviews for potential officers

Sales Advisor

Best Buy

August 2024 – January 2025

Fullerton, CA

- Understood various models of different computer hardware.
- Developed better communications with Co-Workers and better accountability.

PROJECTS

Game Programmer

| *Unity, C-Sharp, Steam API, HLSL* |

August 2022 – Present

- Studied Steam API to understand backend integration for game distribution
- Programmed a modular upgrade system that allows for easy implementations
- Listened to player feedback and iteratively improved gameplay mechanics and features
- Implemented Finite State Machine to improve code quality and simplified processes

3D Game Engine

| *C++, OpenGL, GLSL* |

May 2025 – Present

- Developed a custom 3D game engine in C++ using OpenGL for rendering and GLSL for shaders
- Implemented core engine features such as rendering pipelines, input handling, and window management
- Implemented advanced lighting techniques including Phong shading, Blinn-Phong, and dynamic shadows for realistic rendering

AR-Companion

| *C-Sharp, IOS, Open-GPT API* |

April 2025

- Programmed AR companion to dynamically respond to commands
- Used Open-GPT API for natural language responses
- Ported mobile devices for immersive low-latency conversations

TECHNICAL SKILLS

Languages: C-Sharp, Python, Lua/Luau, C/C++, SQL, JavaScript, HTML/CSS

Developer Tools: Git, VS Code, Visual Studio, TensorFlow, IntelliJ, vim

Libraries: pandas, NumPy, Matplotlib

INTEREST

Video games, Graphics programming, Arts, Guitar, Deepwoken, Arch Linux, Esolangs
